Subject: CONFIRMED RE: Time Sensitive: Meeting Request with Bill Wehrum on SAFE Rulemaking

Dear Allison,

You are confirmed for a 45 min meeting with Bill Wehrum on 2/14, starting at 11:30am.

Directions and procedures to 1200 Pennsylvania Avenue NW:

Metro: If you come by Metro get off at the Federal Triangle metro stop. Exit the metro station and go up two sets of escalators to the surface level and turn right. You will see a short staircase and wheelchair ramp leading to a set of glass doors with the EPA logo - that is the William Jefferson Clinton Federal Building, North Entrance.

Taxi: Direct the taxi to drop you off on 12th Street NW, between Constitution and Pennsylvania Avenues, at the elevator for the Federal Triangle metro stop - this is almost exactly half way between the two avenues on 12th Street NW. Facing the building with the EPA logo and American flags, walk toward the building and take the glass door on your right hand side with the escalators going down to the metro on your left – that is the North Lobby of the William Jefferson Clinton building.

Security Procedures: A government issued photo id is required to enter the building and it is suggested you arrive 15 minutes early in order to be cleared and arrive at the meeting room on time. Upon entering the lobby, the meeting attendees will be asked to pass through security and provide a photo ID for entrance. If you are a foreign national entering on a non-US passport, please let us know in advance, as there is a separate clearance process.

Upon arrival, let the guards know that you were instructed to call 202-564-7404 for a security escort. Please send me a list of participants in advance of the meeting and feel free to contact me should you need any additional information.

Many thanks,

Delaney Rakosnik

Delaney,

Thanks so much for getting back to us; I know you guys have been digging out.

We are glad to meet at Mr. Wehrum's convenience and are available all week with the exception of after 3pm on Monday the 11th.

Thank you.

Allison

Afternoon Emily,

I wanted to please follow up on this request sent last week and see if there was any chance of a meeting this week or as soon as regular operations resume?

Best,

Allison

Subject: Time Sensitive: Meeting Request with Bill Wehrum on SAFE Rulemaking

Emily,

I hope this email finds you well. I wanted to please request a meeting with Bill Wehrum on behalf of myself and our Director, Regulatory Affairs, Jeff Clarke. We wish to discuss comments we submitted related to the SAFE rulemaking.

I am told that EPA is nearing the end of forming policy as it relates to the rulemaking, and as such, we would like to request a meeting as soon as possible. We can be available next week or the first week back in January.

Thank You,

Allison Cunningham
Director, Federal Government Affairs

The Honorable William Wehrum
Assistant Administrator
Office of Air and Radiation (6103A)
U.S. Environmental Protection Agency
1200 Pennsylvania Avenue, N.W.
Washington, D.C. 20460

Dear Assistant Administrator Wehrum:

NGVAmerica and its membership appreciate your willingness to meet us earlier this month to discuss the *"Safer Affordable Fuel-Efficient (SAFE) Vehicles Rule for Model Years 2021-2026 Passenger Cars and Light Trucks."* It was unfortunate but understandable that you were called away during the meeting. However, we had a productive discussion with Mr. Christopher Grundler and Ms. Robin Moran.

As a follow up to the meeting, I would like to briefly summarize the issues we discussed. NGVAmerica's priority with respect to this rulemaking is to ensure that natural gas vehicles (NGVs) are treated fairly and that the final rule incorporates changes that recognize the significant environmental benefits provided by NGVs. We appreciate that the *SAFE* notice acknowledges the need to address the treatment of NGVs and that the Administration is considering amending design requirements that impede the greater use of NGVs. We previously have commented that expanding the opportunity for NGVs in this rulemaking will increase choice for consumers, flexibility for automakers, and benefit the environment by encouraging greater use of domestic natural gas including renewable natural gas.

It is our understanding that the Administration is considering sunseting all remaining incentives for advanced technology vehicles, including provisions benefiting electric and natural gas-powered vehicles. Our position is if these market incentives are extended for one technology, they should be extended for all technologies including NGVs, to ensure parity and a level playing field among competing technologies and to maximize available options for automakers and consumers.

During the February meeting, we also addressed the significance of accounting for upstream emissions for electric vehicles. It is our understanding that there has been some discussion regarding making permanent the 0 gram per mile credit for electric vehicles. NGVAmerica members have expressed concern that the EPA may perceive parity between electric vehicles and NGVs as measuring emissions at the tailpipe. It is our view that a tailpipe-only standard would not provide parity, and that a permanent 0 g/mile factor is a

Advocating the increasing use of NGVs where they benefit most.
For the economy. For the environment. For health. For security. For America.

significant incentive for electric vehicles and should not be extended unless similar favorable treatment is provided for other technologies including NGVs. The most straight forward way to provide such treatment for NGVs is to reinstate the 0.15 factor used for fuel economy so that it also is used for GHG calculations; now expired regulatory text providing this factor already exists in the regulations.

With respect to the previously finalized plan to account for upstream emissions, NGVAmerica believes that such an accounting, particularly if it looks at future emissions, e.g., 2030 electric-grid mix, is also favorable to electric vehicles because it allows electric vehicle manufacturers to take credit for anticipated improvements in emissions associated with the electric grid resulting from increased use of natural gas and renewable energy. Given the significant amount of renewable natural gas currently being used and projected to be used in future years, using a factor of 0.15 or even greater to offset NGV emissions is warranted because RNG use reduces greenhouse gas emissions by 85 percent or more in most cases.

NGV advocates believe that it is appropriate that EPA look at the well-to-wheel emissions of all technologies and that the regulations should give manufacturers credit for improvements in the upstream emission profile of natural gas, including the use of renewable natural gas for transportation, just as it has proposed doing for electric vehicles. Renewable natural gas now accounts for a significant share of on-road natural gas fuel consumption and is anticipated to account for a much larger share in future years. Under the current regulations, however, manufacturers cannot capitalize on the fact that their vehicles will use renewable fuel and thus have little regulatory incentive to produce them.

Our view is that manufacturers would not be producing electric vehicles but for the significant regulatory incentives and mandate to produce them. NGV advocates are not seeking a mandate, but we are asking that the regulations provide a framework that rewards manufacturers for producing and selling NGVs and acknowledges the significant growth occurring with respect to renewable natural gas and the associated GHG emissions reductions benefits.

Just this week, Clean Energy Fuels, the largest provider of natural gas for vehicle use in the U.S., announced plans to have 100 percent of its 535+ stations across the United States dispensing only renewable natural gas by 2025. Given this statement and recent trends in the use of renewable natural gas, NGVAmerica expects that renewable natural gas will very soon exceed fifty percent of natural gas used in transportation and account for an even larger percentage in future years.

Thank you again for meeting with us and considering our viewpoints regarding this important regulatory undertaking.

Subject: CONFIRMED RE: Time Sensitive: Meeting Request with Bill Wehrum on SAFE Rulemaking

Dear Allison,

You are confirmed for a 45 min meeting with Bill Wehrum on 2/14, starting at 11:30am.

Directions and procedures to 1200 Pennsylvania Avenue NW:

Metro: If you come by Metro get off at the Federal Triangle metro stop. Exit the metro station and go up two sets of escalators to the surface level and turn right. You will see a short staircase and wheelchair ramp leading to a set of glass doors with the EPA logo - that is the William Jefferson Clinton Federal Building, North Entrance.

Taxi: Direct the taxi to drop you off on 12th Street NW, between Constitution and Pennsylvania Avenues, at the elevator for the Federal Triangle metro stop - this is almost exactly half way between the two avenues on 12th Street NW. Facing the building with the EPA logo and American flags, walk toward the building and take the glass door on your right hand side with the escalators going down to the metro on your left – that is the North Lobby of the William Jefferson Clinton building.

Security Procedures: A government issued photo id is required to enter the building and it is suggested you arrive 15 minutes early in order to be cleared and arrive at the meeting room on time. Upon entering the lobby, the meeting attendees will be asked to pass through security and provide a photo ID for entrance. If you are a foreign national entering on a non-US passport, please let us know in advance, as there is a separate clearance process.

Upon arrival, let the guards know that you were instructed to call 202-564-7404 for a security escort. Please send me a list of participants in advance of the meeting and feel free to contact me should you need any additional information.

Many thanks,

Delaney Rakosnik

Subject: FW: Time Sensitive: Meeting Request with Bill Wehrum on SAFE Rulemaking

Afternoon Emily,

I wanted to please follow up on this request sent last week and see if there was any chance of a meeting this week or as soon as regular operations resume?

Best,

Allison

Subject: Time Sensitive: Meeting Request with Bill Wehrum on SAFE Rulemaking

Emily,

I hope this email finds you well. I wanted to please request a meeting with Bill Wehrum on behalf of myself and our Director, Regulatory Affairs, Jeff Clarke. We wish to discuss comments we submitted related to the SAFE rulemaking.

I am told that EPA is nearing the end of forming policy as it relates to the rulemaking, and as such, we would like to request a meeting as soon as possible. We can be available next week or the first week back in January.

Thank You,

Allison Cunningham

Hi Bill – Please find tomorrow’s calendar below. 9:15am kicks off your first meeting -- the materials for it are attached, as well as the 4:30pm biogenic update meeting.

Please let me know if you have questions/concerns/additions, or see any fatal flaws in Thursdays calendar.

Many thanks,
 Delaney
